## 4. TYPES OF INFORMATION WE COLLECT ABOUT YOU AND HOW WE COLLECT IT

As you browse and interact with the Websites, we collect several different types of information about you or your device. Some of the information we collect is about you but does not identify you individually (“**Anonymous Information**”); while some of the information is information by which you may be personally identified (“**Personally Identifiable Information**”). We collect this information:

- directly from you when you provide it to us;
- automatically as you navigate through the Websites (information collected automatically may include usage details, IP addresses and information collected through cookies, web beacons and other tracking technologies); and
- when you use the website to interact with third parties See below additional information about our collection of Anonymous Information and Personally Identifiable Information.

## **ANONYMOUS INFORMATION COLLECTED AUTOMATICALLY**

As you navigate through and interact with any of our Websites, we automatically collect certain Anonymous Information about your equipment, browsing actions and patterns, including details of your visits to our Websites, including traffic data, location data, and the resources that you access and use on the Websites, information about your computer and internet connection, including your IP address (a unique string of numbers that is automatically assigned to your computer by your Internet Service Provider), operating system and browser type.

The Anonymous Information we collect automatically is statistical data and does not identify any individual. It helps us to administer and improve our Websites and to deliver a better and more personalized service by enabling us to estimate our audience size and usage patterns, store information about your preferences, allowing us to customize our Websites according to your individual interests, speed up your searches and recognize you when you return to our Websites.

The Websites are intended for use by residents of the United States only (but are subject to additional geographical restrictions as described in the [Terms of Use](#)). The technologies we use for the automatic collection of Anonymous Information may include:

- **Cookies (or browser cookies).** As is the case with many websites, our Websites use a technology called “cookies” which are small data files that are downloaded onto your computer. The use of cookies is standard on the Internet, and allows us to tailor your visits to our Websites to your individual preferences. We may also contract with third party service providers who assign cookies to conduct site tracking for us. These companies use cookies solely to provide us with aggregate data about traffic on our Websites. Although most web browsers automatically accept cookies, you can change your browser to prevent cookies or notify you whenever you are sent a cookie. Cookies may be session-based cookies that are removed after a user leaves a website or persistent cookies that are stored on a user’s computer permanently or until the expiration date. Even without accepting a cookie, you can still access certain of the features on our Websites, but some features may not function as intended. Users can delete cookies via their browser settings.
- **Flash Cookies.** Certain features of our Websites may use local stored objects (or Flash cookies) to collect and store information about your preferences and navigation to, from, and on our Websites. Flash cookies are not managed by the same browser settings that are used for browser cookies. For information about managing your privacy and security settings for Flash cookies, see [Section 6](#).
- **Web Beacons.** Pages of the Websites and our e-mails may contain small electronic files known as web beacons (also referred to as clear gifs, pixel tags and single-pixel gifs) that permit us or our business partners, for example, to count users who have visited those pages or opened an e-mail and for other related website statistics (for example, recording the popularity of certain website content and verifying system and server integrity).

**We do not collect Personally Identifiable Information automatically, but we may tie this information to personal information about you that we collect automatically, or from other sources or that you provide to us.**

[\[Top of Page ↑\]](#)

These third parties may use cookies alone or in conjunction with web beacons or other tracking technologies to collect information about you when you use our Websites. The information they collect may be associated with your Personally Identifiable Information or they may collect information, including Personally Identifiable Information, about your online activities over time and across different websites and other online services. They may use this information to provide you with interest-based (behavioral) advertising or other targeted content.

- **Google Analytics**

Some of our Websites use Google Analytics to better understand how visitors interact with the Website. This service provides Anonymous Information including but not limited to data on where visitors came from, what actions they took on the Websites, and where visitors went when they left the Websites. We use this information to improve your experience when visiting the Website. To learn more about this service and how to opt out of data collection by Google Analytics, you can reference Google’s online information regarding privacy and Google Analytics. We may also work with other business partners to conduct research surveys in order to improve the user experience on the Websites. We encourage you read the privacy statements of these business partners to learn about their data practices.

We do not control these third parties’ tracking technologies or how they may be used. The terms and conditions regarding such User Generated Contributions and Submissions can be found at our [Terms of Use](#). You should be aware that information you choose to publish to our Websites can be viewed by anyone, and therefore we encourage you to be mindful about the content you submit (e.g.,

do not post Personally Identifiable Information, since any other user will be able to see it).

## 8. SECURITY

The Websites incorporate safeguards intended to mitigate risk and help protect the security, integrity and privacy of the Personally Identifiable Information we have collected. See below for additional information regarding such safeguards.

We have put in place reasonable precautions to protect information from loss, misuse and alteration, including Secure Socket Layer (SSL) or Transport Layer Security (TLS) technology. The information you share in public areas may be viewed by any user of the Websites.

Unfortunately, the transmission of information via the Internet is not completely secure. Although we do our best to protect your personal information, we cannot guarantee the security of your personal information transmitted to any of our Websites. Any transmission of personal information is at your own risk. We are not responsible for circumvention of any privacy settings or security measures contained on any of our Websites.

While we strive to protect your personal information, we cannot ensure or warrant the security of any Personally Identifiable Information you transmit to us or through any of our Websites. Once we receive your transmission, we will use reasonable efforts to ensure its security on our internal systems. Depending on the nature of the inquiry, your communication may be discarded or

archived. Please note that your email, like most, if not all, non-encrypted Internet communications, may be accessed and viewed by other Internet users, without your knowledge and permission, while in transit to us. For that reason, to protect your privacy, please do not use email to communicate information to us that you consider sensitive or confidential. If you wish, you may contact us instead via telephone at the numbers provided throughout our Websites or at the address below.

[\[Top of Page ↑\]](#)

If you delete your User Contributions and Submission from a Mobile App, copies of your User Contributions and Submissions may remain viewable in cached and archived pages, or might have been copied or stored by other Mobile App users.
